

JavaScript putting the focus where you want

```
<head>
...
<script type="text/javascript">
  <!--
    function sf(){
      document.f.q.focus();
      window.focus();
      document.f.q.focus();
    }

    // -->
  </script>
</head>
<body onLoad=document.<pagename>.<fieldname>.focus()...
```
